

Case-system KS020 (Demo Case)

mobile CO₂-Laser Marking System

Features

ready to use experimental system

case: 495x385x200 mm

marking unit 2,5kg

integrated electronic beam shutter for laser class 4

20 watt laser power

marking field 70x70mm, 100x100mm, 140x140mm, etc

marking jobs from MMC-card or via USB

integrated air-cooling

Interfaces

USB

encoder

external trigger

2-channel interlock circuit for laser class 1

Options

mark on the fly

pointing laser (red)

marking software

integrated Mini Notebook

battery operated

Fields of application

training

sampling

feasibility studies

lab applications

backup system

mobile applications
