

Laser cooling unit WT022

Stainless steel, IP55

Features

Passive laser cooling for temperatures up to 40°C

For cooling 2 TW020 lasers (2 cooling circuits)

Stainless steel housing

DI-water compliant

Protection class IP55

Corp. dimensions 660 x 375 x 235

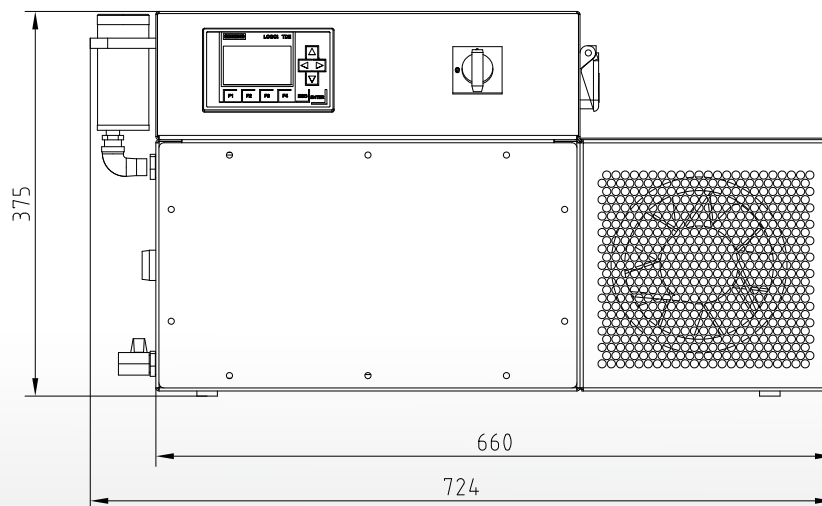

Water quick release couplings

Temperature and flow monitoring

Status display

IO's for feedback to the Laser

Ethernet plug for service
